Airside Operational Notice

Hi Viz clothing standards

The BS standards for Hi Viz clothing have changed and we are now operating to BS EN 471

The standard says the clothing should be dayglow or fluorescent yellow. The below will give you an idea what is allowed and what is not allowed.

All aerodrome users must have BS EN471 compliant Hi Visibility clothing by 30 November 2020

If you are not sure or require any further information please call Richie on 07718193538
